

SERVICES

As a Farmers First company, Green Point can provide farmers with the services needed to be successful from seed to sale.

Field Prep Service

GPR has all requisite tractors, equipment and experience to get your field ready for plants.

Price: Starting at \$400 per acre

Biomass Drying

GPR's proprietary biomass drying technology throughput is upwards of 8,000 input pounds per hour.

Price: Starting at \$0.50 per dry pound

Storage

GPR can store your hemp at its climate controlled facility.

Price: \$15/ supersack month (\$10 if you purchase our genetics)

Multi Service Prep for Smokable Flower

GPR can hang dry, trim, and cure your smokable flower. Hand and machine trim available. Contact for details.

Price: \$75 per dried, trimmed pound

Processing (Extraction & Refining)

GPR leverages best-in-class extraction and refining technology to produce the highest quality bulk cannabinoids.

Price: Starting at \$2.00 per dry pound

Advisory

Available upon request and pricing depends on advisory needs. With nationally recognized hemp cultivation experts on staff, customized consulting can help set you up for success with your next harvest. Limited availability with prioritization for bulk purchasers.
